**DID YOU KNOW?** >>

- About 20% on Ontario is covered by the younger sedimentary rocks, most of which occur in the Hudson and James Bay lowlands and in southern Ontario.

**NEWS RELEASE** >>

**INTERACTIVE CLASSROOM FOR NORTHERN STUDENTS**

April 21, 2010

McGuinty Government Helping Students Succeed, Supporting Business Development

**NEWS**

Touch screens, customizable toolbars, projectors and speakers are among many new interactive tools that may help engage more students in Northern Ontario.

Through the Northern Ontario Heritage Fund Corporation (NOHFC), Northern Computers & Communications in Terrace Bay will now promote Promethean's ActivClassroom products across the North and tailor the content for school board requirements.

The products provide an interactive learning environment for students of all ages and ability. This will help increase student participation in, and understanding of, curriculum.

Helping more students excel in school and supporting business development are key components of the Open Ontario plan to create an educated workforce and new economic opportunities throughout Northern Ontario.

**QUOTES**

"Our investment is helping to bring new teaching and learning technologies, and increased educational opportunities to schools across Northern Ontario."  
— Michael Gravelle, Minister of Northern Development, Mines and Forestry and Chair of the NOHFC.

**QUICK FACTS**

- The NOHFC is providing \$44,651 to this project under its Emerging Technology Program.
- NCC provides IT services and products to home users, the public and private sectors along the north shore of Lake Superior.
